Must have for any man (or woman!) with a computer...

rubber tyres. A special limited edition of Motormouse, in Pink and aimed at the ladies, is about to be released. It can be individually

The latest executive gadget to hit the market and a must-have for any car enthusiast, Motormouse is an exquisitely engineered optical wireless mouse based on an iconic sports car. It features outstanding detail including the smallest 2.4G wireless receiver in the world, a high quality paint finish available in black, silver and metallic red, chrome alloy wheels and real

customised with Swarovski crystals. Motormouse certainly appealed to the multi-millionaires on The Dragons' Den and a convincing pitch from its creators secured a £120,000 backing from Dragon James Caan on the final edition of the hit series. Its rrp is £29.99 and it can be purchased at www.motormouse.net

Dot Com in a Matchbox!

This is really novel! 'Dot Com in a Matchbox' is a totally unique present- why not try something a

little different this year and give your loved ones their very own personalised www. Name? With one little matchbox, it's simple to reserve a place online...whether it's www.fredbloggs.co.uk or www.ilovechristmas.com ...if it's available, you can register it with your 'Dot Com in a Matchbox'. At just £9.99 it's a quirky AND practical stocking-filler suitable for everyone. Buy it from www.mrsite.co.uk or from November you can buy it at Border's book shop.
